Samarth Mukhija

+918118825586 | mukhijasamarth3017@gmail.com | LinkedIn | GitHub

Professional Summary

Computer Science undergraduate with 3+ software engineering internships building scalable backend and AI-powered applications. Skilled in Python, Django, FastAPI, PostgreSQL, Snowflake, REST APIs, and multi-agent AI systems.

Education

Bharati Vidyapeeth College of Engineering ,*Pune, India* 2023 - 2027
B.Tech Computer Science Engineering, CGPA: 8.8/10
Cambridge Court High School *, Jaipur, India* 2019 - 2022
CBSE Class XII: 85% | CBSE Class X: 93%

Technical Skills

Languages: Python, Java, SQL, HTML, CSS
Frameworks: Django, Django REST Framework, FastAPI, React.js, LangChain, LangGraph
Databases & Cloud: PostgreSQL, MySQL, Snowflake, AWS S3
Libraries & Tools: Pandas, NumPy, Matplotlib, FuzzyWuzzy, PdfPlumber, Camelot, Git
Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs, ETL Pipelines, Multi-Agent Systems, NLP
Certifications: NPTEL IoT (Silver), OCI AI Foundations, McKinsey Forward Program

Work Experience

Technology & AI Intern Aug - Oct 2026
Southern Command Headquarters: Indian Army, Pune (Onsite)

- Contributed to **technology and AI initiatives** under Track B of the Digital Media & Strategic Communication Internship Programme at **Headquarters Southern Command**.
- Applied **AI/ML, data analytics, web scraping and automation** to technical and analytical workflows involving confidential organisational requirements.

Software Development Engineer Intern Mar - May 2026
Clarista (Onsite)

- Architected **scalable ETL pipelines** serving fintech clients (Tata, Lazard, Edelweiss), processing **100 GB+ daily data** using PdfPlumber, Camelot, and Python libraries.
- Engineered **Snowflake data reconciliation** using FuzzyWuzzy, reducing **file recovery latency by 60%**.
- Designed a **multi-agent workflow** using LangGraph and LangChain for automated document processing and orchestration.

Software Development Engineer Intern Jun - Sep 2025
MyTegami, Japan (Remote)

- Engineered a **responsive React.js frontend** for an AI-powered cover letter platform, improving usability and scalability.
- Optimised **frontend performance**, achieving **40% faster page loads** and **32% higher responsiveness** through component refactoring and asynchronous API optimisation.

Open Source Contributions

- **Microsoft (NVX, OpenVMM, Scope):** Added restore only CI guards, preserved VM abort diagnostics, and built typed token-endpoint acquisition. GitHub
- **Apache (DataFusion Comet, Fineract):** Added Spark fallbacks for duplicate Arrow struct/JSON fields and migrated Angular calendar/meeting lists to the application i18n adapter. GitHub
- **IBM (Docling Pipelines):** Optimised ExtractOperator hot-path imports, added offline notebook validation in CI, and fixed Markdown filename handling for Docling Serve. GitHub
- **Soup:** Contributed across batched inference, pre-tokenised data validation, GPU/CUDA diagnostics, PyTorch CI, and reproducibility harnesses for bit-exactness, determinism, layer streaming, and backward stability. All PRs

Projects

IPO Intelligence & Recommendation Engine (Django, Pandas, PostgreSQL, ML, Quant) Live Demo | GitHub

- Built an **IPO intelligence platform** evaluating **99+ IPOs** using weighted financial signals and MPT-based optimization across **4 risk profiles**.
- Implemented **VaR, volatility analysis, and stress testing** with Django, Pandas, and PostgreSQL for risk-aware recommendations.

Multi-Agent Data Extraction System (FastAPI, LangChain, LangGraph, SQLite) Live Demo | GitHub

- Built a **6-agent document intelligence system** supporting CSV, Excel, PDF, and text ingestion with natural-language querying.
- Designed **file classification and agent routing** to avoid unnecessary LLM calls and improve token efficiency.

Achievements & Programs

Awards: Selected as one of **500 participants worldwide** for the **Akuna Capital Virtual Quant Trading Challenge 2026**; **Winner, Realms AR/VR Hackathon** (2025); Winner, Epic IQ Challenge India (2020); Runner-up, Rajasthan State Football Championship; Runner-up, Canara Bank Zonal Quiz (2020)

Program: Selected among approximately **70 participants** for the **GoDark Testnet Trading Bootcamp by GoQuant** (Sep 29-Oct 23, 2026), an assessment-based trading program benchmarked against 30% APR.
